IMPORTANT NOTICE TO MY PATIENTS

Please be aware that your vision could be temporarily impaired following eye examinations at my office. Eye drops that dilate your pupils may be a necessary part of your exam to assure accurate results and to aid in the diagnosis and treatment of your eye disease. The use of dilating drops as well as other methods of examination and treatment may cause blurred vision, possibly interfering with your ability to drive safely. If your vision is blurred, please feel free to stay in my office until your vision returns to normal. If necessary, my staff can assist you in arranging for alternative transportation. If you have any questions, please ask my staff.
